J. H. White of Highland county, working at the Buena Vista Lumber Companies mill at Stony Bottom, got his leg broke last Wednesday. An engine was sent for Dr. Price, who straightened the injured man out. He is now getting along alright.

Roger Williams, of Highland county, is in Pocahontas this week with his horse, Grey Barney, a large Percheron Norman stallion. He will make the season in Huntersville and Edray districts. This horse is well known in this county and has an excellent shape for a draft animal, combining the length of body of the Norman, with the muscular build of the Percheron.

J. S. McNeel, returned from Mt. Sterling, Kentucky, Monday where he had been visiting his sister. While absent he bought two fine Kentucky bred riding and driving horses. He had no intention of buying horses when he left home, but falling in love with two animals, one a roan mare and the other a bay gelding, he became their owner. Mr. McNeel says that in Kentucky all horses are bred with a purpose in view, and consequently fine horses are the rule rather than the exception.

SHOOTING AT CASS.

G. L. Osborne Shot While in Company With a Man Wanted by the Police.

A Disorderly Man Resists Arrests and Assaults Mayor. C. L. Burner Shoots Osborne Whom He Supposes is Fleeing From Justice.

A woodsman from Upsher, working at the West Virginia Spruce Lumber company's camps on Cheat mountain, became disorderly on the streets of Cass Saturday and Mayor Newcombe attempted to arrest him. The young man denied Mr. Newcombe's right to detain him and spat on him on the nose, and made haste to take himself hence and was soon out of the corporate limits, where he was joined by a young man named G. L. Osborne, from the same vicinity in Upsher county. Special policemen C. L. and Allen Burner were notified of this breach of the peace, and started out to arrest him, but failed to swear out warrants for his arrest. Failing to find him in the corporation they made their way toward the lumber camps on Cheat mountain. It was found they were on the track of the men who were making rapidly up the mountain, following the railway grade. They were nearly a mile from Cass, and having had a considerable start the deputies were out of breath when they came in hailing distance. They were called upon to halt by the policemen, but no attention was paid to the command other than to quicken their pace. C. L. Burner then drew a revolver of large caliber and taking deliberate aim shot Osborne in the left thigh, barely missing the femoral artery inflicting a very dangerous wound.

The wounded man was brought to Cass, where he received medical attention at the hands of Dr. Arbuckle. Dr. Price was called in consultation on Tuesday. Osborne is a young man and in good health, and the chances are in his favor. The policemen C. L. and Allen Burner were given a hearing Monday, charged with felonious shooting, and bound over to await the action of the grand jury under bond of \$500.00 each. This is C. L. Burner's third shooting scrape in his official career of five or six years. One was the shooting of Craig Ashford, who was wounded in the arm. The other was the killing of Jeff Houchins in self defense while in the discharge of his duty as constable.

J. C. HARPER

Road Supt. Huntersville District. Pocahontas experienced a big snow storm Wednesday.

A Bad Impression The following has been extensively published and is likely to create a bad impression among persons who are not acquainted with our law abiding citizens.

BAD MAN ARRESTED

DAVE LESTER CAUGHT BY CUNNINGHAM.

United States Deputy Marshall D. Cunningham arrested Dave Lester near Marlinton on Wednesday. The prisoner is charged with violating the liquor laws. He has been a fugitive from justice for over two years. He was connected with the same lawless gang as was the notorious Colley, the famous outlaw along Beaver creek, who was shot in a pistol duel by a special deputized constable. Lester is the last of the gang in this district, which was one of the lawless districts of the state. He is now in the Marlinton jail where he will be held until the June term of the United States Court when he will be brought here for trial.

It is true that Dave Lester has been selling liquor, boot legging it along the railroad, and has had indictments pending in our circuit court against him for several months, but it has always been understood that when he was really wanted he could be gotten. Just before April court, deputy Sheriff Callison arrested him at Seebert and brought him to jail at Marlinton. He was convicted in several cases for selling liquor without a license, and was rearrested for violating United States revenue laws.

There never has been an organized band of law breakers in Pocahontas county, whose citizens are the most law abiding of the state.

Millpoint.

We still have rain and snow, and farm work is dull.

New Band Mill.

Harter Bros. of Coburn, Penn. notice of whose operations above Marlinton was made some weeks ago, have come on with a train load of live stock, mill equipments, steel rails, trucks, locomotives, etc.

They will put in a temporary mill with a capacity of 10,000 feet daily to cut timber for their sheds and houses. This portable mill is to be replaced by a band mill, and a bridge built across the Greenbrier. They expect to build a good many miles of narrow gauge railroad and use a cog wheel engine as some of the grade to be overcome is heavy. A full gauge road was to be built but the margin of safety is decreased to such an extent by the increase in size of mountain climbing engine that it was not deemed expedient. Some of this company's timber lies in such inaccessible places that it is easier to move a portable mill to it, than to haul the logs to the band mill. The mill now being set will be used for this purpose upon the installation of the band mill.

The West Virginia Launched.

The United States Cruiser West Virginia the best ship of its kind in the world was launched at Newport News last Saturday in the presence of an immense crowd of people, thirty thousand of whom came from a distance.

Governors White of West Virginia and Montague of Virginia, were present, with a large number of the members of both legislatures, beside three Ex-Governors of West Virginia. Miss Katherine White, daughter of the Governor was the sponsor. A large delegation of German naval officials were present. The exercises were carried through without a single hitch, and the cruiser West Virginia received a christening worthy of the name she bears. Those that took in the launching from Marlinton were R. B. McClure & Brindley, G. Marcus Johnson, Theodore Moore, Mayor Richardson, W. A. Bratton, Blake and Frank King, and J. A. Judson.

Bismarck, a riding and driving stallion, owned by several parties in the Levels, is making the season at E. F. McLaughlin's stable in Marlinton. He has a good pedigree and has a good record behind him.

The Town of Bartow.

The fight between the C. & O. and the Greenbrier, Monongahela and Pittsburg, over the right of way between Durbin and Bartow has been settled, the C. & O. taking the right of way through the pass at the Narrows in question. This early settlement is very advantageous to the town of Bartow, as work on the U. S. Tannery will now go on, the Pocahontas Tanning Company is also looking for a site at the same place. This company has decided to use the town laid out by Col. McGraw above Bartow. None of these lots will be sold. Mr. Arbogast informs us that his company is preparing to put their lots on the market at once, and expects a ready sale. What with a large tannery on both sides of the town, Bartow will at once lead into prominence as an industrial center.

Westward

Walter D. Clark left last Wednesday for Rawlins, Wyoming, after spending the winter with his mother, Mrs. A. S. Clark. He will engage in business with his brother-in-law, S. J. Sharp, who is a successful cattle man, also raising fine horses for market. Cheyenne is the distributing point of a large section in which high grade horses are raised.
